Great game engine, however the lack of motion and animation lets it down, You can only animate from a model import! moving forward would like to see a animation system in this engine, The lighting effects in this engine has some of the best spots I have seen including unreal engine and unity, this has amazing lighting system with more features and it's real shame you can't animate them in movement for example a stage lighting scene .. Frog Climbers is an excellent party game, a ton of fun with a group of friends (even those who don't usually play games).

Several friends and I recently played using a combo of PS4 and wired XBOX controllers connected to my steam link and everyone had a great time.

After "Mount Your Friends" was a huge success with my group of friends (especially while drinking) I stumbled upon this game and thought it might result in similar fun. Just over half of our group preferred this game. This is frantic and hilarious action, the random map generation set by difficulty level is very well done and along with the gameplay modifiers makes for excellent replayability.. OH MY GOD THIS GAME IS SO HARD AND IT MAKES ME REALLY ANGRY BUT AT THE SAME TIME ITS REALLY FUN AND I WANT TO BEAT IT BUT I DONT THINK I WILL EVER BE ABLE TO BECAUSE IM SO BAD BUT FOR SOME REASON I KEEP ON TRYING.. Gets boring real quick, but still super fun until then.. refund takes space in my library trash game. Fast powerful

Bus its very nice and i hope you enjoy the sanarios i will be making with this luxorius train. imj nair buccaneers uyyou have to play a game of battleships in the sky vs asome COLOMGS ** VIKING S AAND & BUCCCNANERS... t owin game u are in charge of fly to ship or to shoot to cannon in

los of people r gonna love ir baby. it's best game EVER in which i PIAYEd. A really fun casual game. Shame is a bit short but replayability is great.

Less than two hours of gameplay and no replay value...not worth it at any price!. For 49 cents, this game does exactly what you'd expect a flash game to do. It's cute, although I wish what was advertised in some of the drama of the ads actually made it into the game - the ads are more humorous than the gameplay itself. Some clever cutscenes between levels would have taken this thing to cult-epic level, which I kind of expected based on the previews and was disappointed not finding.

In terms of the gameplay itself, overall it handles fine for what you're doing. I wish there was more variance in enemy design and some of the movements borderline on cheeseball in terms of a manufactured difficulty based on luck rather than difficulty based more on skill, which hits at the core gameplay. It felt like a slightly out of balance arcade game, which is fine, but could have been mitigated easily without adding any real production cost.

Cute game, fun way to drink a couple of beers and kill a couple of hours. And then likely never play again. As long as you're in specifically for just that level of experience, then that's what you get here. 25 cents an hour sounds about right for the price.. A fairly easy game, quick to learn and fun when you want some time well spent.

For all the puzzlers out there: No, it is not a diehard puzzle game. Just do it for the cute story and fun time.. AMAZING fun with friends! It's like Bomberman meets Mario Party! I'm excited to stream this, this was such a great experience! Will definitely be playing this on a regular basis! Keep up the great work, David! 9/10. I really wanted to like this game but there are too many faults right now

- 1) the squatting at the poles doesn't let you see much
- 2) you can literally run past the end of the track - bad
- 3) there seems to be no way to reset the game - the controllers don't function
- 4) there is just too little game for the price point - 2 distances no turning

JPO. Pretty decent top down shooter with a almost Galaga feel. There are only two different ships and three different stages (four if you include the bonus stage) which means the game won't take a lot of time to complete, however the game has a lot of replay value which means the limited selection doesn't really take anything away from it.

Also, FIRST!!!!
