This game is the best game on Steam. There is nothing that can change my mind that there is ANY game that is better than this.. it reminds me doom, for the style of play and also the difficulty.. This beautiful game has made me speechless. I haven't gotten to the infamous Level 3 quite yet because my crappy computer isn't good enough to handle the game so I don't know how truly "impossible" that level is but I'd rate this a 10 out of 10 would recommend.
